Summary

Currently I am in my final year of Information Technology at the University of Applied Sciences at Inholland Haarlem. In addition I work parttime as a DevOps Engineer and mentor at Albert Heijn Tech Labs. Where I am mentoring the interns of Tech Labs and picking up ongoing projects and maintaining current environments.

Work experience

Dev Ops Engineer and Mentor AH Tech Labs

2021-08 - present

Ahold Delhaize, Zaandam, NL

Software development and mentoring interns at AH Tech Labs

Stagiair AH Tech Labs, Software development

2020-09 - 2021-02

Ahold Delhaize, Zaandam, NL

During my internship I made the following projects together with my team:

- Bonus Recipes (Find recipes based on the discount)
- Emergency plan (A fallback page if the main site will be down)
- Buy button (Websites outside AH can add a button to their site so that the products on that site can be added to their shopping cart)

Allroundmedewerker

2016-08 - 2021-03

Edward Hagen Techniek, Heemskerk, NL

Nederland
